

GOVERNMENT OF BELIZE

Ministry of Economic Development, Commerce, Industry and Consumer Protection

23rd December 2009

PUBLIC ADVISORY

The Government of Belize has recently discovered that several online gaming websites are claiming to have an online gaming license from Belize. We advise the internet community and the general public that there are only two online gaming companies with license to operate from Belize, these are: Fulton Data Processing Limited and Sports Off Shore Limited. Any other company that claims to have such a license from Belize is clandestine and we ask all internet users to refrain from doing business with these.

All online gaming companies in Belize require licensing under the Gaming Control Act and its Online Gaming Regulations. Online Gaming licenses are issued by the Gaming Control Board of Belize to companies of reputable standing and with proven track record in gaming.

If you need further information about gaming in Belize, please contact the Secretary, Gaming Control Board in Belmopan, Belize at Tel (501) 822-2526, Fax (501) 822-3673 or Email econdev@btl.net.
